REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of New Castle:

I herewith submit to you my twenty-second report as superintendent of your schools. The statistical report for the past completed school year will be included and also the pupil enrollment in our local school, as well as a list of tuition pupils attending Portsmouth for the current year.

The present year began on Wednesday, September 5, 1951, with an enrollment of 51. This compares with last year's figure of 44, and the preceding year of 37. There are 34 New Castle pupils attending the Portsmouth schools. The district is responsible for the tuition of 32 of these.

The people of New Castle are to be congratulated upon their vote to construct a new school building. The plan adopted calls for a modern three-room building, conforming to the most approved standards. Its first objective is service to the children. Special care has been taken to have the most approved lighting. Windows are large and well-placed. All furniture is finished with light, non-glare surface. The heating system used is that of forced hot water, with three-zone control. By this means uneven heating between the different rooms is avoided.

The floor plans are adapted to modern classroom procedures. The rooms are equipped with modern, movable furniture. Because of this, our school will have a workshop atmosphere. Work by small group units will be possible, since those having similar problems may work together and apart from the class as a whole. A pleasant, quiet building is an incentive to orderly endeavor. Our new rooms will be finished in cinder block, with ceilings having an acoustical factor. Each of these features helps to lessen noise in the rooms. Until such time as three teachers will be required, the third may well be used as an activity room. This will enable the children to work on larger projects than is possible in the classroom. Some degree of physical education may also be made a part of the school program.

The Federal government, by Public Law 874, has recognized its obligation for assisting in educating the children of its employees. By this law, funds are allotted to the school districts in proportion to the number of pupils who are educated by the district and whose parents work in the Navy Yard. The New Castle district has received \$1,502.77 and has been approved for \$644.05 in addition. By this much the Federal government has reduced the cost of our schools to us. There is nothing certain about the continuation of this law. Ap-

plication for aid during the current year has been made and has been received in Washington. We have received notice that this application is being processed.

The Parent Teacher Association is a valuable ally of the school. The percentage of parents belonging to the local group must be a source of pride to New Castle. Always interested, it has proved its value on many occasions.

Supervisory Union No. 21 voted the purchase of a film strip library. Film strips are strictly teaching aids, made by recognized teachers for presentation of school subjects. By the joint purchase of the seven districts, the entire library will be made available to all, the cost being apportioned according to the number of pupils using the films. Pictures are always attractive to children. If arithmetic, geography and science can be presented in picture form, the lessons are learned more easily.

As an improved service to the children of our school a Keystone Visual Survey Telebinocular has been purchased by the Lions Club of Hampton. This machine measures more accurately the eyesight of our pupils. Fourteen different tests are given measuring defects found throughout the country among school children. A more accurate testing will result from this service.

Respectfully submitted,

ROY W. GILLMORE,

Superintendent of Schools.

MUNICIPAL COURT OF NEW CASTLE

STATE OF NEW HAMPSHIRE

JUDGES' CHAMBERS

Oliver W. Marvin, Esquire, Justice

Newcomb L. Damon, Esquire, Special Justice

By Chapter 163 of the Laws of 1951 the assessment of costs against respondents in criminal cases was forbidden on and after July 1, 1951. It became the duty of the court before whom any witness testified to maintain a register of all persons who have testified as witnesses for the state or who are entitled by order of the court to be paid witness fees in each criminal court; such witness fees to be paid out of the monies collected by the court. Prior to that time it had been the practice of the justices of said court to remit the fines and costs collected to the town treasurer and request the honorable board of selectmen to issue orders upon the said treasurer for the disbursements for said court as directed by the justices thereof. On and after July 1, 1951, it became necessary, proper and convenient for the said court to maintain its own financial records and accounts and the following schedules constitute a full, complete and accurate statement thereof.
